ORACLE® Gold Partner

THE COMPANY.

Established in 1982 and an Oracle Partner since 1992, Zirous is an Oracle Gold Partner specializing in Oracle Core Technology sales and implementations, including Service Oriented Architecture, Business Intelligence, Content Management, WebCenter, and Identity and Access Management products and services. Corporate headquarters is in West Des Moines, Iowa with additional offices in Portland, Oregon and Bloomington, Minnesota.

To continue our success and growth, we are seeking team members who:
- Solve business problems with technology
- Enjoy using new technology
- Are motivated to deliver

THE POSITION.

The successful candidate will support on-going identity management project work at several clients. Some projects include an OIM, OAAM implementation for a state employment agency; an OVD and OIF implementation at a global cleaning and sanitization solution provider; an OID, OVD and EUS implementation at a Midwest telecom company; and a continued implementation of OIM at a Midwest-based health care insurance company.

At Zirous, Identity Management Specialists:
• Work on a team to install, configure and troubleshoot Oracle Middleware solutions in the Identity Management space.
• Develop, maintain, support and optimize key functional areas including, but not limited to, network infrastructure, server infrastructure, data communications, and telecommunications systems.
• Follow approved life cycle methodologies and create design documents.
• Resolve technical issues through debugging, research and investigation.
• Work closely with other team members and Manager to accomplish company, client and personal goals.
• Strive to expand professional and personal skills through a variety of assigned activities. Reports to Infrastructure and Security Services Manager.

THE REQUIREMENTS.

The successful candidate has:
• 5+ years industry experience relating to network infrastructure, system administration, network and application security concepts as well as previous consulting experience
• 2+ years experience with Oracle Identity Management
• Excellent communication skills, analytical ability, good judgment and the ability to work effectively with clients and staff.
• Bachelor's degree in related field or equivalent work experience.

Preference will be given to candidates that have experience in one or more of the following areas:
• Oracle Identity Management Suite
• WebLogic Application Server
• Windows, Linux, or other UNIX operating systems
• SSO, LDAP, Java, XML
• Enterprise Directory or Active Directory Domain Administration
